OUR TEAM

THOMAS COOMBES

Founder and creative director

Thomas Coombes Interior Design is a leading interiors studio based in Esher, Surrey. At Thomas Coombes Interior Design the client comes first.

Founder and creative director Thomas Coombes works with every single client from the initial consultation through construction to final installation.

We pride ourselves on our ability to create bespoke designs which seamlessly blend stunning form with function.

Whether you're looking to give one room a face-lift or overhaul your entire home, we are here to turn your vision into reality. We will help you bring the ideas to life and guide you to create a space you will not only be proud of but excited to come home to every day.

Each client and their home is unique, we pride ourselves on a completely individualised approach and plenty of personal touches. The process of creating your dream home is collaborative one and our team of talented designers work from concept to completion whilst considering all practical and stylistic elements.

We are committed to providing the best possible service and customer experience so we only take on a limited number of projects each year, allowing us to dedicate the time needed for the results our clients deserve.

INTERIOR DESIGN

Based in Esher Surrey, Thomas Coombes focuses on real homes and real families. Each client and their respective space is important and will be treated as such. From the small to large projects, every step of the way we will maintain quality and integrity in our work.

We love this work. In fact, it doesn't even feel like work. We love partnering with a client to bring their vision to life. We work with the highest caliber of developers, architects, contractors, and suppliers to bring you the best of the best.

Thomas Coombes interior design provides accurate floor plans, elevations, 3D visuals, FF&E specifications, and presentation boards of selected materials for you to visualise the design before we bring it to life.

Whether you have a new or existing space, a single room or an entire home to renovate, we will work to suit your needs. We start with an understanding of your vision and the requirements of the space. We incorporate a budget that you feel comfortable with, and create a layout that serves as both innovative and stylish.

We are your partner in the management of the project, from start to finish we will ensure a seamless execution.

Our goal is to have you feel invested in the process and to achieve a space that leaves an impression.

THOMAS COOMBES FURNITURE

Visit us at our showroom and studio on the high street in Esher to explore our extensive collection of chairs, sofa, day beds and more. Here you can sit with our design team, discuss fabric options, unique ideas to create the perfect look for your home.

All of our pieces are UK made and all materials sourced from within the UK so we can provide accurate lead times and competitive pricing for timeless pieces.

OUR PROCESS

01

Concept Design

The first step in all of our projects is a site visit. Thomas Coombes and his team will visit the client's home and discuss ideas, plans, vision and requirements whilst gaining understanding of the potential of the space.

We interpret our client's brief into concept boards and explore spatial planning options whilst also drawing up floor plans and designing the look and feel of each area.

This stage is hugely collaborative and we work closely with the client making amendments and finalising plans.

02

Detail Design

With all the concepts agreed we move onto the next phase whereby we create a series of CAD plans and specifications.

The computer assisted designs allow the client to see the finishes, joinery, interior architecture and bespoke furniture whilst really getting a feel for what the completed project will be like.

This design pack give a comprehensive guide to timelines, budget and scope of work.

03

Installation

Attention to detail is paramount, our designers attend regular meetings and site visits to ensure the brief is adhered to meticulously and the project is progressing accordingly.

We always keep the client updated throughout the project, delivering finished homes that exceed expectations.
